This is an e-book printed book and may not include any media, website access codes, or print supplements that may come packed with related books. This is a tied 3 hole punched book. The perfect stage companion to Words Their Way: Word Study for Phonics, Vocabulary and Spelling Instruction. In keeping with the authors' belief that a hands-on approach to word sorting is invaluable to both teachers and students, this volume is a complete curriculum for students who are in the syllables and affixes of the spelling stage. Complete with 58 varieties, specific teacher referrals, suggestions for follow-up, and spell-checking for current evaluation, this collection of varieties presents 24 words each week. The new edition includes clearly stated generalizations for each lesson, step-by-step directions for each species, as well as a new tempo chart and a set of goal writing. Together, the basic text of Words Their Way and this supplement provide teachers with the knowledge and tools to meet a wide range of needs in modern classrooms.
